

Cogniva

Turn habits into progress.

BRAND GUIDELINE · VERSION 1.0 · OCTOBER 2026

01 — Brand foundation

Cogniva is a calm, intelligent study and productivity workspace that turns everyday habits into clearer priorities, focused sessions, and measurable academic progress.

BRAND PROMISE

Help students understand what deserves attention now, work with less friction, and learn from their own patterns over time.

PERSONALITY

Calm · Intelligent · Supportive · Progress-oriented

POSITIONING

An adaptive academic productivity companion—not just a to-do list, timer, or chatbot.

02 — Naming and messaging

COGNIVA

A name inspired by cognition: thinking, learning, and understanding. It is broad enough to grow beyond student tools while remaining connected to intelligent learning.

MESSAGE HIERARCHY

- 1 Cogniva turns habits into progress.
- 2 Notes, tasks, adaptive focus, AI study support, and academic insights in one workflow.
- 3 Users feel less overwhelmed and more in control of their next step.
- 4 Recommendations are explainable and based on real product signals.

VOICE

Calm clarity. Useful intelligence. Human support. Honest confidence.

03 — Logo system

Cogniva

Turn habits into progress.

The mark is a quiet, open “C” formed by two balanced paths. The open form suggests clarity and possibility; the lower path introduces forward movement without using a literal arrow.

VARIANTS

Primary lockup: mark + Cogniva wordmark.

Compact lockup: mark + wordmark without tagline.

App mark: symbol only inside a square container.

Monochrome: one-color black, white, or Forest.

RULES

Keep clear space equal to the height of the inner opening. Do not stretch, rotate, outline, add gradients, or place on busy imagery. Minimum app mark: 20 px.

04 — Color system

FOREST #173F36

SAGE #9BAF91

TEAL #4F7F80

IVORY #F7F6EF

INK #17211F

CORE PALETTE

FOREST	#173F36	Primary brand, headings, primary actions
SAGE	#9BAF91	Calm secondary accent and progress surfaces
TEAL	#4F7F80	Focus, links, active states, charts
IVORY	#F7F6EF	Default canvas and warm background
INK	#17211F	Reading text and high contrast

STATUS COLORS

Success #3F7D5A · Warning #B98236 · Critical #B94B4B · Information #4F7F80

Use approximately 60% Ivory, 25% Forest/Ink, 10% Sage, and 5% Teal or status colors.

05 — Typography

PRIMARY UI FONT

Inter — clean, legible, and suitable for web and desktop.

DISPLAY ALTERNATIVE

Manrope — use sparingly for warmer hero headlines.

TYPE SCALE

Display 40-64 px / 700

H1 32 px / 700

H2 24 px / 650

Body 16 px / 400

Caption 12-13 px / 500

Use sentence case, generous line-height, and short paragraphs. Avoid all-caps except for small labels or data categories.

06 — Visual and UI language

DESIGN PRINCIPLES

- 1 Reduce cognitive load: show the next useful decision first.
- 2 Make intelligence explainable: every recommendation has a plain-language reason.
- 3 Use calm hierarchy: reserve strong contrast for meaningful actions.
- 4 Reward progress visibly without creating anxiety.

COMPONENT DIRECTION

Soft 12–16 px corners, subtle borders, little or no shadow. Forest primary buttons; Ivory/Forest secondary buttons. Prefer clear lines, bars, and rings over decorative 3D charts.

MOTION

150–250 ms transitions. Animation communicates state, never pressure.

07 — Product experience

COGNIVA WORKFLOW

Understand habits → Organize notes + tasks → Focus on the next step → Review progress

FEATURE NAMING

Notes: Cogniva Notes / AI Summary

Tasks: Priority Board / Next Tasks

Focus: Adaptive Focus / Focus Session

Analytics: Progress / Learning Insights

Assessment: Academic Snapshot

Assistant: Cogniva Study Assistant

Do not call every feature “AI”. Describe fuzzy prioritization as adaptive logic or an explainable priority engine.

08 — Copy examples

LANDING PAGE

Headline: Make progress easier to see.

Subheadline: Cogniva brings your notes, tasks, focus time, and learning patterns into one calm workspace.

CTA: Start your workspace

PRODUCT MICROCOPY

“This task is high priority because its deadline is near and its difficulty is high.”

“A 40-minute session gives this task enough room without overloading your focus.”

“Good work. One focused session moved this task forward.”

ACCESSIBILITY

Every chart, status, and recommendation needs a text explanation. Never communicate urgency with color alone.

09 — Applications and governance

APPLICATIONS

Web app: Ivory canvas, Forest navigation, Teal active states, Sage progress surfaces.

Desktop app: App mark on Forest or Ivory.

Social profile: App mark only with generous padding.

Academic report: Full lockup on Ivory with Forest headings.

ASSET CHECKLIST

SVG primary · SVG monochrome · transparent PNG · favicon · app icon · CSS color tokens · font configuration · UI component library · approved copy library

GOVERNANCE

The logo shown is a concept direction. Before public launch, complete production SVG tracing and final typeface licensing. Review every new surface against calmness, clarity, explainability, accessibility, and accuracy.
